Stretch Activities Safeguarding and Protection Policies

- **An understanding of child protection and safeguarding when delivering services.**
- **Anti-Bullying Policy**

Our teachers are briefed about the potential problems of some children and service users and know the procedure if this should arise i.e. to speak to a member of staff at the school and to inform Annabel or Georgina immediately.

Similarly if our teachers are aware of any form of bullying during the delivery of classes they are asked to immediately speak with Annabel who will contact the school or Centre to discuss this further. We will sign up to schools or the Centre's own Child Protection Policy also.

We welcome all children and service users to all our classes and ensure individuals are not feeling excluded.
